This statewide contract is an "AR" (authorization required) contract. Authorization is required before purchase can be made. The authorization requirements and procedure is detailed in the attachment to the contract. Orders may be placed only after authorization is received.

This contract covers only those items listed in the price schedule. It is the responsibility of the agency to ensure that other items purchased are invoiced separately. In addition to the other approval(s) required, all state agency capital outlay purchases over \$10,000 must have prior written approval from the division of finance. Agency will make payment on df-50 (warrant request). Agencies will return to the vendor any invoice which reflects incorrect pricing.

Authorization Required: The contract for 800 radio equipment and infrastructure components is a system purchase contract which is administered by the Utah Communications Agency Network (UCAN) EST by the Utah Legislature in 1997. Details of the legislation are located in the Utah State Code annotated 63-38-2. All 800 MHz Purchases from this contract must be coordinated through the executive committee of UCAN as currently established by the code. Please contact Steve Proctor, (801) 965-4968, for guidance.
